WEDNESDAY MARCH 17, 1909

The privilege of appeal granted under the liquor law amendment passed in the Senate this morning appears to this paper as nothing more than common justice. The law as amended does not tend to increase the number of saloons. It assures full publicity and is thereby merely a check on an injustice of despotism.

Not having full knowledge of the inner workings of the Speaker's caucus in the House of Representatives, there is a possibility of forcible reasons for the return of Delegate Kihio that do not appear on the surface. Under ordinary circumstances, the Bulletin can imagine nothing more necessary than for the full working force of this Territory to be on hand in Washington during the extra session for the revision of the tariff. The lands of this Territory of Hawaii will be worth much or little, as the tariff on our industries is favorable or not.

THE NEW APPROPRIATION SCHEME.

Every taxpayer in the Territory of Hawaii has a personal interest in the tentative scheme for financing the government of the Territory and Counties published on another page of this issue.

Here is an outline for action that will accomplish the main object of legislative existence in the estimation of a good number of citizens who criticize much but offer few practical suggestions at the time most needed. If it is followed, the expenses of government will come within the income, and leave a margin to apply on the public debt.

That the plan will be adopted in exact detail is highly improbable. This paper has no assurance that it will be accepted in any form. The result is largely with the people; whether the weight of public opinion will be felt more heavily on the retrenchment end than with the forces that want large appropriations for friends and districts, and are ready to trade the appropriation items up to an excessive total in order to gain their ends.

Public opinion has been very positively expressed in opposition to any increase of the tax rate to gain funds to be used in the ordinary administration of affairs.

Now let those convinced that the Territory and the Counties can be carried on without increasing the revenues apply themselves to the task in hand of reducing and distributing the expense and income.

In the outline that is offered, the feature that especially appeals to this paper is the increase over the Governor's estimates of the appropriation for school-teachers' salaries. The consolidation of offices in the Departments of Public Works, Public Lands, the Survey and Treasury offices, is also very much to the point.

The whole scheme is along the lines to which the government of these Islands must eventually be hewn. There must be a steady transfer of responsibility to the local governments, and as this is done the Territorial machinery must be reduced.

The suggestion has been made—and it is an excellent one—that there is no time better than the present to make the reductions in the official lists. With the general prosperity prevailing the elimination of offices will cause the least hardship among officers affected.

Too many of the people shouting the loudest against the excessive taxation will in the next breath protest against the elimination of some office held by a friend, or oppose the reduction of some appropriation for a piece of public work in which they are personally interested.

Our citizens should learn that the Legislature can run the country on a businesslike basis when the people on the outside cease demanding appropriations to suit individual views and absolutely disregard the general result. It is when legislation and appropriation becomes a grab game on the part of interests and individuals outside the legislative halls that public business goes wrong.

SENATE

(Continued from Page 1)

law. People do not want it changed and this Legislature should take no action without very good and sufficient reasons for doing so. The fact that in an isolated case a liquor dealer may have encountered what appears to be a hardship, is not sufficient reason for changing the law.

"The present liquor law, though not perfect, has answered its purpose very well, and I therefore move that this section be stricken out."

The motion was lost, and the next section was proceeded with.

The fifth section of the Moore bill, providing that, for a period of ten years, intoxicating liquors manufactured in this Territory other than from fruit wholly grown here, shall only be dispensed after a license fee of \$250 annually has been paid, next came in for hot shot.

Moore explained that, under the existing law, the \$5 fee, accorded those making wine from grapes grown wholly in the Islands, was being granted to rectifiers manufacturing synthetic liquors and the like, and that the section was included at the request of the wholesale liquor dealers.

"\$1000. Fee Suggested. Senator Smith suggested that, were such the case, he would recommend the amendment of that section so as to fix the tax in such cases at \$500. Fairchild announced that he would go it one better and make the tax \$1000.

Chillingworth poured oil on the troubled waters, and suggested that the section be amended by the striking out the phrase "for a period of ten years."

The motion was lost on a rising vote, only Smith, Knudsen, and Chillingworth rising. Fairchild was out of the room.

The Vital Section

Then came up the one vital point of the entire bill—that section giving to liquor men the right of appeal to the courts from the decisions of the License Boards. Senator Smith at once took the floor again.

"There is no one of the amendments which is so objectionable as this, giving the right of appeal," said Smith. "The power of the Board under the present law is a very wholesome provision. Two years ago the present law was passed, and it has proved to be the best that we ever had in the Territory."

"It is charged that the granting of so much power to the Board makes it a despotic body. The members of the Board are appointed by the Governor and must be confirmed by the Senate. I am heartily in favor of leaving them with the power they have, and I move that this section be stricken out."

"If we should pass this amendment to the law, what will be our reasons for doing so? I do not wish to impugn the motives of anyone, but we have received petitions from all over the Territory opposing this provision. Not one petition in its favor has come to hand."

Senator Fairchild then took another shot. Said he:

More Power to Counties. "This matter brings up the question of granting more power to the Counties, and forces the issue. Here is Kauai perfectly satisfied with the present law being forced to accept legislation which she does not want because Oahu so desires it. I shall work for an increase in the power of the Counties, because I believe that such power will be safer there than it is in this Legislature."

Motion Lost

Senator Smith's motion to strike out the section granting right of appeal was lost by the following vote:

Ayes—Baker, Brown, Fairchild, Knudsen, Kalama, the President, Noes—Chillingworth, Coelho, Harvey, Makekau, McCarthy, Moore, Quinn, Robinson, Woods.

Senator Chillingworth then offered the following amendment to the bill, which was adopted:

Chillingworth Amendment. Section 35A. Appeals shall be al-

shall operate as a superseding, and an immediate hearing on appeal may be ordered by the Judge sitting in chambers or the Supreme Court upon good cause being shown therefor, and the party appealing may, pending appeal, continue the exercise of the license suspended or revoked or of which a renewal has been refused, as the case may be, upon executing to such Board a bond in the sum of One Thousand Dollars (\$1000) conditional upon said party appealing. In case he is defeated in his said appeal, paying to the Secretary of such Board the proportionate part of the annual license fee for each day that such license shall have been exercised by him pending said appeal.

McCarthy then moved the passage of the bill as amended.

Quinn took the floor with these words:

Quinn on Record

"Mr. Chairman, I wish to go on record as being in favor of the proposed amendments to the present liquor law. I am not interested in any liquor concern; no liquor men have any strings on me. But I claim that no commission should have the despotic power granted the License Commission by the present law."

"Senator Smith has said that many petitions have been received, opposing any change in the law, but that none have been received favoring it. That is true, but dozens of the most prominent men of this city, not liquor men, have stopped me on the street and commended the stand which I have taken."

"In times past the License Commission has acted in a despotic manner, and I will not allow myself to be intimidated by those who would force me to vote otherwise than as my sense of right directs."

On the calling of the ayes and noes, the bill passed to third reading by the following vote:

Record of Ayes and Noes

Ayes—Baker, Brown, Chillingworth, Coelho, Harvey, Makekau, McCarthy, Moore, Quinn, Robinson, Woods. Noes—Fairchild, Kalama, Knudsen, the President.

IMMIGRATION BILL

(Continued from Page 1)

eruing the merits of which he was not certain in his mind.

Senator Chillingworth said that he had made a study of the measure and was prepared to answer any question which the Senator from Hawaii might ask.

Fairchild said:

"This bill has been discussed at length, both in the daily papers and at meetings of citizens, and I believe that its provisions should be fairly well known to most people. I therefore ask that the third reading of this measure be now taken up."

Woods moved a postponement until tomorrow morning, and his motion prevailed.

The following bills came up from the House this morning and passed first reading:

House Bill 73, exemption of home-steads; House Bill 79; House Bill 88, powers of counties; House Bill 10, appointment of juries; House Bill 25, Hilo park; House Bill 117, stamp duties; House Bill 129; House Concurrent Resolution No. 15, inviting Delegate Fairchild to come back here at the expense of the Territory on the land law; House Concurrent Resolution 16, tariff on coffee; House Concurrent Resolution 17, annual session of Legislature.

A communication from the Woman's Christian Temperance Union, opposing any reduction in the school appropriation, was read.

ANY ONE WOULD DO

In a speech before the Wellesley Club recently, Augustus Thomas told this story about Nat Goodwin: "Say, Nat," said Willie Collier to Mr. Goodwin as they were coming out of the Lamb Club shortly after the latter's marriage to Miss Goodrich, "invite me to one of your weddings some time, won't you?"—Everybody's Magazine.

TROUBLED WITH STOMACH FOR SEVEN YEARS.

I Doctored With Six Different Physicians.

I Gave Up All Hopes of Ever Being Cured.

I Am Now Like a New Man, Thanks to Pe-ru-na and Man-a-lin.

At least one person in ten has some stomach difficulty. This is only one way to say, that there are a vast multitude of people in this country who are suffering from ailments directly due to a deranged stomach.

The haste and hurry of American life is mainly to blame for this. Rapid eating, worry and anxiety after eating, is sure to bring on stomach difficulty sooner or later.

Those who suffer from stomach derangement ought to know of Peruna. Peruna rarely fails to bring relief, and in some cases the restoration is almost magical.

The testimonial of Mr. George H. Simser, of Grant, Ontario, Canada, is a fair sample of the sort of testimonials Dr. Hartman is receiving concerning Peruna as a remedy for stomach ailments.

Other Cases of Stomach Trouble.

MR. H. J. HENSEMAN, Oakland, Nebraska, U. S. A., writes:

"I waited before writing to you about my sickness, catarrh of the stomach, which I had over a year ago."

"There were people who told me it would not stay cured, but I am sure that I am cured, for I do not feel any more ill effects, have a good appetite and am getting fat. So I am, and will say to all, I am cured for good."

"I thank you for your kindness."

"Peruna will be our house medicine hereafter."

MR. H. W. NAGEL, 63 Church St., Meriden, Connecticut, U. S. A., writes:

"For several years I had been troubled with catarrh of the stomach."

"After trying about everything else, I was advised to try Peruna."

"I could not eat any solid food for some time; now I can eat most anything that comes along."

"I have taken several bottles of Peruna and Manalin and am entirely cured. I heartily recommend Peruna and Manalin to every sufferer of catarrh."

"I thank you for your kind advice."

MR. CALEB H. BORTELL, Police Officer, 212 N. Paca St., Baltimore, Maryland, U. S. A., writes: "For several years I was troubled with catarrh of the head, throat and stomach. Many times I would vomit before and after eating."

"I took seven bottles of your Peruna, and I am glad to say that it has cured me. I feel more like living and working, and am not bothered at all with my old troubles."

"I take great pleasure in recommending Peruna to all sufferers with catarrh, and I thank you for what you have done for me, for none but those who have suffered as I have can appreciate a great cure as I have found Peruna to be."

Mr. George H. Simser, Grant, Ont., Can., writes:

"I was troubled with my stomach for about seven years."

"I doctored with six different doctors. Some of them seemed to help me at the time, but failed to cure me. Some said it was cancer of the liver, others said it was dyspepsia or indigestion."

"Last fall I suffered so much that I gave up all hopes of ever being cured. I had headache, toothache, and lots of other troubles too numerous to mention."

"At that time, my wife was taking Peruna and Manalin and she urged me to try them. I took them, but without the least faith."

"After a week or so I felt a great deal better, so I continued to use them."

"After I had taken two bottles of Peruna and half a bottle of Manalin, I felt real well."

"I am now like a new man, thanks to Peruna and Manalin."

Dyspepsia for Twenty Years.

Mr. Sidney Wessels, Merrittville, Ontario, Canada, writes:

"I have been troubled with dyspepsia and indigestion for twenty years, during which time I tried different doctors, but did not get the desired results."

"I have been compelled for weeks at a time to give up work, being completely prostrated. I had to confine myself to a milk diet, as nothing would remain on my stomach."

"I had about given up, thinking my case incurable, when I heard of Peruna and decided to try it."

"One bottle made a great change and after using another bottle of this wonderful medicine, I had complete freedom from pain, my appetite had returned and I could again enjoy my meals."

"I believe Peruna is the greatest medicine under the sun."

"Today I weigh over two hundred and twenty-five pounds. Is it any wonder that I praise Peruna?"

Catarrh of Stomach.

Rev. J. T. Feeler, Hendersonville, South Carolina, U. S. A., writes:

"I desire to make known for the benefit of suffering humanity my experience with Peruna."

"I was afflicted with catarrh of the stomach, and though I tried several remedies and applied to several doctors, it was all in vain."

"Had it not been for Peruna I believe I would have been in my grave to-day."

"I have every reason to believe that Peruna is the greatest remedy for catarrh known to the world. Therefore I have been, and shall continue to recommend it to those who are unwell."

Tonic Effect of Pe-ru-na.

Mr. J. E. Carson, 218 St. Clarens Ave., Toronto, Canada, Inspector London Life Insurance Co., London, Canada, writes:

"I have used the popular remedy known as Peruna, and I can testify as to its merits. I regard it as one of the best tonics now on the market."

The following wholesale druggists will supply the retail trade: BENSON, SMITH & CO., Honolulu, Hawaii.

LOGAN IS OFF UNHURT

(Continued from Page 1)
many congratulations this morning at the Naval Station. All-Moses had to say of how he did it was that he went out last night and started to pull when the tide was high.

"Mr. Moses, the Lieutenant Commander, who carried out orders, made a successful pull of the Logan," said Captain Rees. "He is entitled to all credit for the successful operation by which the Logan was pulled from the coral reef. I am very much pleased with his work."

"I have sent a cablegram to the Department in which Mr. Moses' work is mentioned, and I also mentioned the assistance rendered by Captain Lewis of the British cruiser Cambrian. Beyond that I mentioned the assistance offered by Captain Nugent of the British cruiser Flora, which arrived yesterday."

Had the steamer not come off before, the two British cruisers would have joined the pulling force.

Save Money

Money in the bank means a number of things:

It means confidence and self reliance. Confidence of others in the depositor, self-reliance for the depositor himself.

It means thrift and economy; not avarice, for the miser never puts money in the bank—he wants to finger it.

It means that the depositor is prepared for whatever opportunity may come of making a paying investment.

It means that there is a growing amount of ready cash working day and night for him, drawing 4 1/4 per cent. interest.
